

America asks allegiance can stand honest investigation and survive the acid test of experience.

Beyond administration or government, democracy means doing things together. It means living with teachers as well as studying with them, making them friends as well as advisors. It means eating together, dancing after dinner, dressing up on Saturday nights, listening to concerts and radio programs or

playing in them. It means freedom in work and freedom in play, and at the same time it means continual community consciousness. It means discussing the problems of politics and philosophy with people of different opinions who have lived through wars and great social upheavals. It means leading a mature self-directed life prepared to face the threats and complexities of a critical age.
